

DOWNTOWN CHART HISTORY RESURFACES

EVENT DATE · 12 JANUARY 2025

Charlie Void is returning *Downtown* to digital platforms after discovering retrospectively that the recording reached No. 55 on South Africa's iTunes Electronic Songs Chart in January 2025.

Originally recorded in 2018 and commercially released on 17 January 2022, the song's historical chart result resurfaced during a broader review of the Charlie Void catalogue and archived career history.

The public chart archive records *Downtown* at No. 55 on the South Africa iTunes Electronic Songs Chart, with one week on chart during the week of 12 January 2025.

The current redistribution is not a new chart entry. It restores a historically released and charting Charlie Void catalogue recording to digital availability.

Downtown is a disco synth-pop and French-pop fusion recording. Its historical ISRC is US-CGH-22-41628.
